

Smoke Him Out.

(Festus News.)

There is before Congress at the present time a ship subsidy bill. This is a measure opposed by all farmer organizations and by all labor organizations and by most small merchants, clerks, and the common class of people in general, and yet President Harding is determined on securing this legislation for the benefit of certain gigantic financial interests. It simply means that additional burdensome taxes must be levied on all the masses of the people, and especially on farmers, in order that an enormous fund can be secured and turned over to the ship owners, including the Standard Oil Company. Senator Spencer is aiding the President in his frantic efforts to force through this unpopular legislation. Where does Congressman Rhodes stand? Will he come out and say that he is on the side of the common people in this legislation and that he will vote against any ship subsidy? He has not done so. He should be asked at every meeting and it should be demanded that he answer this question. Voters have a right to know. So far M. E. Rhodes hides in the hollow log of "doesn't know enough about it" and he ought to be smoked out. We predict that Rhodes will not dare go before the public and announce that he is in favor of the ship subsidy bill, and on the other hand if elected we predict that Rhodes will not dare vote against the administration in favor of the common people. The people of this nation know that they are opposed to all subsidies; they know the history of all subsidies and this one will be no different. Mr. Rhodes has been in Congress four years; it has been his duty to become posted on such matters as this. If he is not sufficiently posted on the the subsidy question from which this nation has at many times suffered for the past fifty years he is not enough posted to represent any district in Congress. But he is posted. He knows. Now, it is up to the voters to make him tell whether, if elected, he will vote for or against this unjust legislation.

How does Dr. Wolff stand on this question? We have never asked him nor have we discussed the question with him. But the voters have the same rights with them. Ask him. You have a right to know. And we dare say Dr. Wolff will not try to hide in any hollow log to get out of answering this or any other question.

This ship subsidy question was not long ago polled amongst farmer organizations and it was found that 99 percent of the farmers in this country are vigorously opposed to the bill, while labor organizations stood absolutely 100 per cent opposed to it; not one laboring man was found who favored this bill and only two farmers out of every 100.

Use Old Tires as Spares.

Your oldest casing may have in it hundreds of miles that we can save for you; some day it may come in mighty handy as a spare. Bring it in and let us look it over. We advise only such repairs as pay.

Road Work Will Begin in a Few Weeks.

The letting of the contracts for 110 miles of state roads this week means the starting of the state's \$60,000,000 road program immediately.

The State Highway Commission has three parties of surveyors out at present completing surveys on roads that are to be taken up this fall. The contracts let the other day were included in 21 counties and it is expected that additional contracts will be let in as many more counties within the next 30 days. The State Highway Commission expects to have road work going under the new bond law in more than half the counties of the state by the first of December. The contracts in other counties will follow right along as rapidly as it is possible for the engineers to get the projects ready for letting.

HUNTERS, TAKE NOTICE.

All persons are hereby given notice not to hunt or trespass on my premises. Those disregarding this warning will be prosecuted to the limit of the law.
